

Exam Preparation Guidance

Exams at UWA

Exams are an important part of your studies at university, and we want to help make this time as stress-free as possible.

It's important to review the key dates and read the information about alternative arrangements and deferred or supplementary exams. Find out all you need to know about [before and during your exams](https://www.uwa.edu.au/students/your-studies/exams-assessments-and-results/before-and-during-your-exams) (<https://www.uwa.edu.au/students/your-studies/exams-assessments-and-results/before-and-during-your-exams>), including assessment types, exam rules, and support for preparing for your exams.

Note: centrally administered exams are not scheduled on University or public holidays.

Visit [Exams](https://www.uwa.edu.au/students/your-studies/exams-assessments-and-results) (<https://www.uwa.edu.au/students/your-studies/exams-assessments-and-results>) (University of Western Australia, n.d.) to learn more.

How to prepare

- Start by reviewing key concepts, lecture slides, and past assessments.
- Focus your revision on the topics outlined in the course.
- Use practice questions or quizzes where available.
- Create a study timetable to help you stay on track.
