

Assessment 2 Final Examination Information

ASSESSMENT

Weighting: 50%

Opens: XX.XXxm AWST **DAY** **MONTH** 202X

Due date: XX.XXxm AWST **DAY** **MONTH** 202X

Quiz/Test: Once open, you can access and complete the quiz here: [Add link] Test/Quiz portal

This assessment will determine your attainment of the following **course learning outcomes**:

1. undertake problem identification via abstraction
2. describe common and important data structures and algorithms in the computing discipline: in-class tests
3. implement a range of data structures and information literacy algorithms in a high-level programming language
4. apply existing data structures and algorithms from pre-built software libraries
5. design data structures and algorithms
6. critically assess the performance of different data structures and algorithms

After you have read this information, go to the relevant discussion board to ask any questions and see what your peers are saying about this assessment.

Exceptional Variation to Assessment (EVA)

You may be eligible for Exceptional Variation to Assessment (EVA) (<https://uwa.au/eva>) if your study has been adversely affected by illness or other significant circumstances outside your control. Likely outcomes of applying for and being granted EVA can vary. You may be:

- granted an extension for an assignment
- permitted to withdraw from your unit without academic penalty
- offered a deferred examination
- permitted exemption or granted an alternate opportunity for an assessment item
